

DAVID WEBER OIL COMPANY

STURDY & SAFE LUBRICANTS

PRODUCTS FOR THE CONSTRUCTION INDUSTRY

David Weber Oil Co. manufactures a full line of heavy duty lubricants for the construction industry. These lubricants are designed to not only meet, but exceed OEM and industry standards for the equipments for which they are recommended. The products below represent an overview of the lubricants and greases used in the construction industry, however there are many miscellaneous lubricants not included. Contact your sales representative or our Technical Department for recommendations on any specific equipment.

Engine Oils

GIBRALTAR 15W/40 ULTRA

Premium Diesel Engine Oil formulated with Group II Plus Hydrocracked base stocks. Exceeds the following OEM requirements: Mack EO-N Premium Plus '03; Detroit Diesel Powerguard, Cummins 20078, 20077, 20076, 20071; Caterpillar ECF-1; Volvo VDS-3; Mercedes Benz 228.3, 229.1; Allison C-4; Global DHD-1; API CI-4+, CH-4, CG-4, CF-4, CF, SL.

GIBRALTAR 15W/40 SUPER S-3

Super Premium Diesel Engine Oil formulated with Group II Plus Hydrocracked base stocks. Exceeds the following OEM requirements: Mack EO-N Premium Plus '03; Cummins 20078, 20077, 20076, 20071; Caterpillar ECF-1; Volvo VDS-3; Mercedes Benz 228.3, 229.1; Allison C-4; Global DHD-1; API CI-4, CH-4, CG-4, CF-4, CF, SL.

NEW!

GIBRALTAR 15W/40 SUPER S-3 LD

Synthetic Blend Diesel Engine Oil formulated for the most severe service and/or extended drain applications. Outstanding shear stability for stay-in-grade performance. Superior oxidative stability and reserve alkalinity. Exceeds the following industry requirements: Mack EO-N Premium Plus '03, Volvo VDS-3, Detroit Diesel Powerguard, Cummins 20078, 20077, 20076, 20071; Caterpillar ECF-1; Mercedes Benz 228.3, 229.1; Global DHD-1; Allison C-4; API CI-4+, CH-4, CG-4, CF-4, CF, SL.

GIBRALTAR SUPER S-3 MONOGRADES

High performance straight grade diesel engine oils meeting API CF, CF-2 and SL. Recommended for any diesel engines where a straight grade oil is preferred. They meet the requirements of the Caterpillar TO-2 specification. The SAE 10 grade is the preferred recommendation for hydraulic systems on Caterpillar and Komatsu equipment. The SAE 10 and SAE 30 grades meet the requirements of Allison C-4.

Transmission Fluids

UNIVERSAL TRACTOR FLUID

A premium multi-functional fluid for recommended for tractors requiring a single oil for the lubrication of transmission, hydraulics and final drives. These fluids are also often used in the wet brakes and power steering units. This fluid meets the requirements of John Deere, J.I. Case, Ford New Holland, Massey-Ferguson and Allis-Chalmers.

GIBRALTAR DEXRON III/MERCON ATF Syngear EP

Multi-purpose automatic transmission fluid fully qualified by both General Motors and Ford. Approved Allison C-4 Fluid.

Fully synthetic gear lubricants meeting the extended drain requirements of Mack GO-J Plus, Rockwell and Eaton Roadranger. They are available in SAE 75W/90 and SAE 80W/140 grades.

SYNGEAR CD 50

Fully synthetic lubricant for manual transmissions in severe service and/or extended drain applications. Fully approved for use in the Eaton Roadranger extended warranty program. Also recommended for use in Spicer and Rockwell transmissions where a synthetic is specified or preferred.

ATF TYPE F

Ford Type transmission fluid formulated to meet the requirements of M2C33-F.

CAT TO-4 TRANS FLUID

Premium transmission fluid formulated to meet the requirements of the Caterpillar TO-4 specification. Provides enhanced friction and anti-wear performance and elastomer compatibility over the engine oils that were previously recommended under the TO-2 specifications.

Greases

NEW!

HI-IMPACT HAMMER GREASE

Specially formulated with a high level of copper, graphite and molybdenum solids to give increased performance and hammer chisel life.

PREMIUM ALL-PLEX EP

High impact grease recommended for severe service applications. Premium All-Plex EP greases outperform conventional greases in adhesion, extreme pressure protection and water resistance. Available in NLGI grades 1 and 2.

MOLYLITHO #2

Premium high temperature grease containing molybdenum disulfide for increased wear and shock loading protection.

EXTRA LITE 0 GREASE

Multi-purpose lithium grease designed to easily be pumped through automatic greasing systems.

Gear Lubricants

Gibraltar EP Gear Lubricant

Multi-purpose manual transmission and differential lubricants recommended for all applications where an API GL-5, MT-1 or MIL-PRF-2105 rated oil is required. Available in SAE 80W/90 and 85W/140 viscosity grades.

Gibraltar Straight Mineral Gear Oil

Premium gear oils recommended wherever a GL-1 oil is specified and extreme pressure properties are not required. These oil provide outstanding anti-foam properties as well as corrosion and oxidation protection. Available in SAE 90 and 140 grades.
