

DAVID **WEBER OIL** COMPANY

STURDY & SAFE LUBRICANTS

PRODUCTS FOR THE ELEVATOR INDUSTRY

David Weber Oil Co. manufactures a full line of heavy duty lubricants for the elevator industry. These lubricants are designed to not only meet, but exceed OEM and industry standards for the equipments for which they are recommended. The products below represent an overview of the lubricants used in the elevator industry, however there are many miscellaneous lubricants not included. Contact your sales representative or our Technical Department for recommendations on any specific equipment.

Hydraulic Oils

GIBRALTAR BIO-SAFE

A Premium Biodegradable Hydraulic Oil formulated to provide excellent biodegradability without sacrifice to pump performance. Bio-Safe is the number one choice for elevator contractors and owners looking for an environmentally friendly hydraulic oil.

GIBRALTAR FRICTION-GARD

A premium hydraulic oil fortified with proprietary friction modifiers in order to provide outstanding, trouble-free performance in above ground telescoping jacks. Gibraltar Friction- Gard effectively eliminates the stick/slip problems often associated with these jacks.

GIBRALTAR PREMIUM ANTI-WEAR HYDRAULIC OIL

Premium petroleum-based hydraulic oil formulated to provide long life in all hydraulic applications. Contains an effective combination of high quality, high viscosity-index base stocks and performance additives, including anti-wear, anti-oxidant, corrosion inhibitors, pour point depressants and demulsifiers.

Gear Oils

GIBRALTAR ELEVATOR GEAR OIL

Our most popular worm gear oil formulated to provide customers excellent performance in a wide variety of elevator worm gear boxes.

GIBRALTAR 250 GEAR OIL

Our most viscous gear box oil for older gear boxes prone to leakage.

GIBRALTAR AGMA #6 EP GEAR

A less viscous gear oil for newer units requiring an oil of this viscosity.

Specialty Products

MOTOR BEARING OIL

ISO 100 Lubricant fortified with rust & oxidation inhibitors to give long trouble free service in traction elevator motors.

WIRE ROPE LUBRICANT

Low viscosity lubricant to protect and lubricate wire ropes. Special formula penetrates into the cable to give optimum long term protection.

RAIL OIL

Lubricant which is specially formulated to adhere to metal surfaces in order to provide optimum lubrication and protection.

CLEANING FLUID

Solvent-type premium multi-purpose cleaner.
